

LUMINOUS LANTERNS

You'll need to gather glue, pipe cleaners, tissue paper, a foam paint brush, a 2 Liter soda bottle, and a light source. These

- This fun art project was inspired by stained glass style lanterns that glow with warm color when they're lit.
- The decoupage process can be pretty messy, so we recommend laying down newspaper or used grocery bags as a base on your work surface.
- These lanterns are the perfect addition to the Wintertide festival Lantern Parade. [CLICK HERE](#) to learn more about the festival and how to participate.
- Art isn't just about the finished product, it's about the creative process and the joy that comes with flexing your artistic muscles.
-

Happy Creating!
